SURAJ KESHARWANI

.NET Developer | Full-Stack, Backend & Production Support

+91-9794930740 | +91-6386580826 | surajkesharwani9918@gmail.com | Delhi NCR, India | Portfolio | LinkedIn | GitHub

SUMMARY

.NET Developer with ~3 years' experience owning features end to end, from SQL Server schema and C# / ASP.NET Core Web APIs to React interfaces and IIS deployment. Handles production support, incident management, log analysis and root cause analysis for client-facing applications, writes unit tests with xUnit, and is currently building hands-on skills in Microsoft Azure. Works in Agile/Scrum teams with CI/CD via GitHub Actions, SSIS ETL workflows, and AI-assisted development using Claude Code and GitHub Copilot.

EXPERIENCE

Software Developer (.NET Full-Stack) — Scanditech Solutions Pvt Ltd, Faridabad, Haryana *01/2024 – Present*

- Own end-to-end delivery of a multi-module ASP.NET MVC and .NET Core application in C#, .NET Framework, and SQL Server, following OOP design patterns and n-tier architecture.
- Run weekly and monthly releases to IIS on VM-hosted servers — sites, application pools, bindings, web.config, HTTPS certificates, and Windows authentication — published via MSBuild.
- Resolve production incidents and escalations independently, performing root cause analysis and log analysis on 500/502 errors, application pool crashes, and file-permission failures using IIS logs and Windows Event Viewer.
- Provide production support on VM-hosted servers via Zoho Assist remote access — monitoring application health, investigating issues on live environments, and applying fixes with minimal downtime.
- Lead client requirements end to end — gathering them from stakeholders, translating them into technical solutions, and delivering within committed timelines.
- Design RESTful Web APIs connecting React to backend services, secured with ASP.NET Identity and JWT tokens, including a reusable currency conversion module.
- Write unit tests with xUnit for business and API layers, catching regressions before release and supporting stable weekly/monthly deployments.
- Optimize SQL Server queries, stored procedures, triggers, and indexing for a 30% performance gain, and access data through LINQ and Entity Framework.
- Automate recurring operations — agreement period updates, archive linking/delinking, and alert emails — through SQL Agent Jobs, Windows Services, and SSIS ETL workflows.
- Build responsive UI components using React, JavaScript, TypeScript, jQuery, HTML, CSS, AJAX, and Bootstrap.
- Establish CI/CD pipelines with GitHub Actions and peer-review code for the development team through feature branching and pull requests on Git/GitHub.
- Drive AI-assisted engineering with Claude Code and agentic workflows — refactors, debugging, documentation, test coverage, and code review on diffs.

PROJECTS

System Organizer

C#, .NET MVC, SQL Server, JavaScript, jQuery, HTML, CSS, IIS

- Contributed to a trilingual (English/Swedish/French) web application for property management and construction project coordination, including role-based access control.
- Delivered document management, scheduling, task assignment (To-Do), and a Q&A module; integrated a third-party Gantt chart tool.
- Created Windows Services for alert emails and background status/data updates.

Company Organizer

C#, .NET Core Web API, Entity Framework Core, SQL Server, JavaScript, React

- Implemented JWT-based authentication in .NET Core Web API for secure, stateless, scalable login and registration.
- Designed a modular n-tier architecture with separate API, business, and data layers, integrating with React on the frontend.

E-Commerce Web Application

C#, .NET Framework, ASP.NET MVC, SQL Server, React

- Developed admin and client functionality including product/category/order management, authentication, cart, and payment integration.
- Optimized backend API calls and database queries, improving communication effectiveness by 40%.

Automatic Entry Vehicle Authentication System

Python, Tkinter, Machine Learning (CNN, Haar Cascade)

- Engineered a real-time vehicle recognition system using Haar Cascade for plate detection and CNN for character extraction, achieving 96% accuracy.

SKILLS

Languages: C#, SQL, JavaScript, TypeScript, XML

Frameworks: .NET Core, .NET Framework, ASP.NET MVC, ASP.NET Core, ADO.NET, Entity Framework, LINQ

Frontend: React, HTML, CSS, AJAX, JSON, Bootstrap, Tailwind CSS, jQuery

Data / ETL: SQL Server, SSIS

Testing: xUnit, Unit Testing, Postman, Swagger

Production Support: Incident Management, Root Cause Analysis, Log Analysis, IIS Logs, Windows Event Viewer, Zoho Assist (remote support)

Architecture & Practices: OOP Design Patterns, N-Tier Architecture, Agile/Scrum, Code Reviews, Debugging & Performance Profiling

DevOps & Tools: Git, GitHub, GitHub Actions (CI/CD), Visual Studio, VS Code

Servers & Deployment: IIS (sites, application pools, bindings), web.config, SSL/TLS certificates, Windows Server, VM-hosted deployment

Cloud (learning): Microsoft Azure

AI-Assisted Development: Claude Code, Claude agents & agentic workflows, Claude API, AI-assisted code review, GitHub Copilot

Other: REST APIs, Windows Services, JWT Authentication, SQL Agent Jobs

TRAINING / COURSES

.NET Full-Stack Developer — Ducat India

Complete front-end and back-end training on the Microsoft stack: C#, .NET Core, ASP.NET MVC, SQL Server, Entity Framework, LINQ, Web API, HTML5, CSS3, JavaScript, Bootstrap, and React, including real-time projects and deployment.

EDUCATION

B.Tech, Electronics & Communication Engineering *08/2019 – 06/2023*

Rajkiya Engineering College, Kannauj

Senior Secondary (Class XII) & Secondary (Class X) *04/2014 – 05/2017*

Janta Intermediate College, Mauaima, Prayagraj

KEY ACHIEVEMENTS

- **Performance Optimization:** Improved system performance by 30% through optimized SQL queries and indexing.
- **API Communication:** Developed RESTful APIs that improved communication effectiveness by 40%.
- **Vehicle Authentication:** Achieved 96% accuracy in a CNN-based vehicle authentication system.

ADDITIONAL INFORMATION

Languages: Hindi (Proficient), English (Proficient) | **Strengths:** Quick learner, self-motivated, strong analytical & problem-solving skills | **Interests:** Exploring new technologies, outdoor sports, travel
